

REMARKS

Although no further amendment of the title should be needed, this Amendment is submitted to ensure that the correct title of the invention will be listed on the front page of the Letters Patent, since the Title of the Invention printed on the Notice of Allowance was different from that of the amendment to the title made in the Amendment under 37 CFR 1.111 submitted on January 26, 2006. The title should read as follows: SYSTEM AND METHOD FOR REGULATING DATA TRANSMISSION IN ACCORDANCE WITH A RECEIVER'S EXPECTED DEMODULATION CAPACITY.

Entry of this Amendment to the Title is respectfully requested.

Respectfully submitted,

James E. Ledbetter
